

Cigar City Railroad

Hello and welcome to the Cigar City Railroad. This layout is an N-scale composed completely of T-trak modules. While I do have additional modules, this is the current size and setup of this particular layout. With this layout I am trying to create a sense of place - Ybor City, Florida to be more specific. This is a fun little town to model with its shotgun houses and a lot of different industries that I am exploring to add to the layout.

Style: Freelance
Era: 80's and 90's
Scale: N
Size: 3'x8'
% Completed: 50%
% Scenery: 30%
Control: DC
