

## Southern Yankee

### Joe Burden

- Style: Freelance – Rhode Island theme
- Era: Late 50's – early 60's
- Scale: N
- Size: 88 sqft irregular shape
- % Completed: Track 100%
- % Scenery: 100%
- Control: Digitrax DCC
- Features: Code 55 rail many lighted structures

It was built with artistic suggestions from Joe's wife Polly. In addition to being powered by a Digitrax DCS100, The layout also includes DCC Specialities reversing units and features from various other electronic manufacturers. The buildings with lighting have full interiors. There are street lights, grade crossings, a working bridge, and a light house with a functioning beacon.
