

The “Final Run at Brookford” was held for Wade’s Train Town on January 9, 2021. This signature project for the Division has been active for over 35 years. However, deactivating this project doesn't end the need for our efforts. Pending final plans for relocation, we need to inventory and make other preparations for the future move.

WE NEED VOLUNTEERS to help closing out this project. Gil Brauch, MMR, along with Ed Smith, will be spearheading work sessions every Saturday during February. With a limit of four people per session, we'll start at 10:00am and work for 3-4 hours beginning on February 6th. Check your calendars and email us at wadestraintown@carolinasouthern.org with the day you would like to volunteer. We will take the first three volunteers for each day. We ask that you give this serious consideration because it will take more than two or three persons to pull off this whole project. If we get enough volunteers, the burden on each person will be much, much lighter.

Thanks in advance for your help.
